

SECTION 1: Identification

1.1. Identification

Product form : Nonwoven White/Natural Coloured Polypropylene Geotextile
Trade name : Geotextile
Product code : NS-200R

1.2. Supplier

Supplier:

US Company Name

US Address

US telephone number

Manufacturer:
SKAPS Industries
335 Athena Dr.,
Athens, GA, USA 30601

1.3. Emergency telephone number

Emergency number : (706) 354-3700; Fax (706) 354-3700

SECTION 2: Hazard(s) identification

2.1. Overview

No hazardous components in geotextile at or above threshold limit values. Polypropylene is not hazardous under OSHA Hazard Communication Standard (29 CFR 1910.1200). GHS Label Elements are not required.

SECTION 3: Composition/Information on ingredients

3.1. Hazardous ingredients

Ingredient Chemical Name	CAS-No.	% by Weight
Polypropylene Resin	9003-07-0	94 - 99

SECTION 4: First-aid measures

4.1. Information on basic physical and chemical properties

First-aid measures after inhalation : Not likely in current form.
First-aid measures after skin contact : Treat as thermal burn if contact with molten. Wash with soap and water. In case of irritation, consult a physician.
First-aid measures after eye contact : Dust may cause irritation. Flush with Water
First-aid measures after ingestion : Not likely in current form.

SECTION 5: Fire-fighting measures

5.1. Flash Point

> 600 degrees (F) (COC, ASTM D92)

5.2. Extinguishing Media

Dry Chemical, Carbon Dioxide, Foam, Water, and Halon

5.2. Special Fire Fighting Procedure

For large fires in confined area, use NIOSH/MSHA approved, self-containing breathing apparatus. Use water fog or spray to cool exposed equipment & containers.

SECTION 6: Accidental release measures

No environmental threat is expected from release.

NS-200R GEOTEXTILE

Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

SECTION 7: Handling and storage

7.1. Handling

Practice reasonable care and caution in handling. Large rolls may require lifting devices.

7.2. Waste Disposal

Ensure conformity with all applicable disposal regulations. This product does not meet the definition of hazardous waste material.

7.3. Storage

The material should be kept in its original packaging. In the event of damage to the packaging during shipment, repairs should be made to ensure protection against UV and weather. Care should be used during the off-loading to ensure that the machinery used does not penetrate packaging. Rolls should not be stored in standing water. For storage longer than 30 days, rolls should be elevated off the ground with tires, pallets or 2 x 4's to prevent water from saturating the bottom row. Care must be taken to prevent exposure of the product to excessive dust.

SECTION 8: Exposure controls/personal protection

9.1. Individual protection measures/Personal protective equipment

Respiratory protection: Use NIOSH respirators when hot/molten product.

Protective gloves: Required when handling molten product

Practice general hygiene by washing hands and clothes after handling.

SECTION 9: Physical and chemical properties

Boiling Point	: Not Applicable
Vapour Pressure	: Not Applicable
Specific Gravity	: 0.90 - 0.905
Melting Point	: 120-170 Degrees (C)
Vapour Density	: Not Applicable
Evaporation Rate	: Not Applicable
Solubility in Water	: Not Applicable
Appearance and Odour	: Essentially odourless; wound on cardboard core

SECTION 10: Stability and reactivity

Material is stable. Hazardous polymerization will not occur. Do not store near heat, flame, or strong oxidants.

SECTION 11: Toxicological information

No toxic reaction known under normal conditions

SECTION 12: Ecological information

Environmental Data: Not expected to be hazardous to the environment in present form.

SECTION 13: Disposal information

Spent material should be recycled or disposed according to current regulations. Does not contain RCRA regulated materials.

SECTION 13: Transport information

No specific request
